Re: Receipt of Additional Information, New Ore Rail Reload Facility - Waste Rock Placement In Bingham Canyon, Kennecott Utah Copper Corporation (KUCC), Bingham Canyon Mine, M/035/002, Salt Lake County, Utah

Dear Ms. Doughty:

Thank you for the additional information regarding the relocation of the ore rail reload facility within the Bingham Canyon permit area received by the Division on January 18, 2000. The written description of the relocation and function of the reload facility along with the surface facilities map were useful in updating the Division's files and understanding of the current Bingham Canyon operations.

We appreciate your cooperation and timely response to our request. Please contact me, or Tony Gallegos at 538-5286 and 538-5267 respectively, if you have any questions regarding this letter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Reclamation Program
